

## EACCME credits for reviewing scientific and educational material - Application by journal editor

---

Dear Colleagues,

The UEMS-EACCME<sup>®</sup> is delighted to announce that, as of today, the EACCME<sup>®</sup> platform will accept applications submitted by a journal editor on behalf of its reviewers for awarding credits for reviewing scientific and educational material.

While in 2017 we had announced that an individual reviewer could apply to receive credits for reviewing scientific and educational material, it is now possible for a journal editor to apply on behalf of its reviewers.

Please find attached our criteria to apply as a journal editor.

If you, as a journal, are interested in offering European CME credits (ECMECs<sup>®</sup>) to your reviewers, please apply at:

<https://eaccme.uems.eu>

In order to be able to apply, you will first need to create a user's account:

<https://eaccme.uems.eu/RegisterJournalEditorProvider.aspx>

We thank you for your trust in the UEMS-EACCME<sup>®</sup> and look forward to continuing working with you!

With kind regards,

The UEMS-EACCME<sup>®</sup> office

We will be delighted for you to contact the EACCME office if you need more information:
